Umme Khanzada
Ian May
Cllr Khulique Malik
Beant Sachar
Kamaldeep Sandhu
Shafick
Gurpreet Kansal
Ali Martin
Gary Carter
Zohaib Butt

Apologies Cllr Devina Raam, Cllr Dhaliwal, Gian Chakra

Items

Email account needs upgrading- Ian currently using personal server space. Umme proposed for some of CAG fund allocated to upgrade, proposal supported by Cllr Malik and Kamaldeep. Ian to come back with cost.

Precinct style planter- Umme proposes to install two multi-tiered self-watering flowering planters on paved area outside Heathrow House where the old subway was. Permissions being sought through TfL. Cost for one planter is approx. £670 + plants and soil. CAG to apply for a neighbourhood grant to fund this. Weekly rota system will be drawn up for CAG volunteers to carry out low maintenance checks.

Planting seeds that will flower throughout the summer by the green space next to 677 Bath Road. Some research required into low maintenance flowering plants, Gary Carter will to seek advise from Heathrow Garden Centre for appropriate flowers. Permissions for planting being sought through TfL. Reconnaissance with TfL identified many spaces along the Parkway for planting trees- Umme will update on progress in February.

Reclaiming the riverside- project underway and managed by Judith Ressler of TCV. Meeting with stake holders including CAG in the new year to share our visions for the green corridor.

Bin installation- all Parkway lay-bys installed with bins providing truckers with means of disposing waste. There has been an improvement as evidenced by CAG collecting fewer bags of rubbish. Grit bins have been installed around Berkeley Parade for the flats above shops- Beant proposed council to educate residents of flats above shops to use the bins properly- Simone Jones LBH leading this. Shafick points out transient tenants will not be informed of the bins and landlords also need to take responsibility in educating tenants. Cllr Malk has asked shop keepers to be vigilant on reporting offenders dumping household waste by the parade of shops.

Kamaldeep- connect special waste enforcement team to Cranford Ward police- Kam and Umme to follow.

Q and A session with ward Cllrs

Umme-what, why and when are the plans to extend the Cranford boundary into West Heston. Cllr Malik states the changes be effective from 2022 with Cranford including Southall Lane, Church Road, Hayes Road and Brabazon area with largely industrial areas rather than residential.

Cllr Malik will organise a historic, current and future boundary map for Cranford.

AOB

Ian May- Travelodge ownership to Ibis chain.

Kamaldeep-update on memorial gardens with four Magnolia trees planted, extra bulbs planted and LBH approval for solar lighting. Kamaldeep to organise a google drive for members to upload evidence of ASB and street drinking problem in Cranford for the area to be covered by the cumulative impact policy with next review October 2023.

Umme and Zohaib-house on Firs Drive illegally using the Parkway to store their building material and dumping building waste. The rear development is without planning permission and being investigated by LBH enforcement team and TfL.

Umme- freedom of information request revealed more penalty notices being issued in the Cranford ward than the previous year particularly from special waste enforcement team.

Next meeting 16th March 2022

Proposed AGM in June.
